

CMB

## Aplication

CMB mini circuit breaker applies to electromagnetic design which possesses the functions of overload and short circuit protection. It is widely used for illumination and distribution in industry and commerce because of its characters of pleasing out-look, light weight, reliable performance, high breaking capacity for rated current under 63A(10KA), easy and clearly for operation etc. It complies with the standard of IEC898.

## Specification

Rated current	1,2,4,6,8,10,13,16,20,25,32,40,50, 63A
Poles	1,2,3
Rated voltage	230/240V,400/415V
Breaking capacity	10000 A
