

The toroidal transformers are designed and manufactured with rated capacity from 50VA to 1000VA. Advantage:

- Small
- Light
- Changeable dimensions
- Little magnetic field leakage
- Little noise
- Small no-load loss
- High-efficiency
- Low temperaure-rise
- Jnner connection method: Either Welding or Fastening Inner connection method:
- Welding
- Fastening

Technical data & Dimensions:

DP series toroidal transformers						
Model	Rated load (VA)	Static Curren(mA)	Efficiency (%)	Dimensions (mm)		
				Height	Diameter	
DH-50	50	10	90	45	100	
DH-100	100	15	92	50	105	
DH-150	150	20	93	55	120	
DH-200	200	30	94	60	125	
DH-250	250	35	94	65	125	
DH-300	300	40	94	60	135	
DH-350	350	45	95	65	135	
DH-400	400	50	95	75	140	
DH-450	450	55	95	70	140	
DH-500	500	55	95	80	140	
DH-550	550	55	95	70	145	
DH-600	600	55	95	85	150	
DH-700	700	60	95	85	155	
DH-800	800	65	95	85	160	
DH-1000	1000	75	95	90	160	

Special design could be made according to customer’s request.
