

Application:

it can be used for measuring insulation resistance of insulation materials as well as various electric equipments ,such as transformers, electric motors, cables and switches

Features:

- * Three rated voltages available.
- * Small size, light weight, easy operated and portable
- * Low power consumption; turn off the power supply automatically after about 5 minutes operating time.
- * Low battery sign function.
- * 3 1/2 LCD digital display, directly and clearly

Specifications

Model	2671P1	2671P
Rated Voltage	100V ; 250V ; 500V	250V ; 500V ; 1000V
Output Voltage	Rated Voltage × (1±10 %)	
Measuring Range	(0.1 ~ 199.9)MΩ ;(20 ~ 1999)MΩ	
Accuracy	±(5 % RDG+2d)	
Output Short Circuit Current	≥1mA(500V)	≥1mA(1000V)

Withstand Voltage	AC2kV 50Hz 1min
Operating Temperature&Humidity	0°C~40°C; < 85% RH
Power Supply	9V (6F22 Battery)
Dimensions	195 mm (L) × 95 mm (W) × 40 mm(D)
Weight	≈0.3kg
